Technical Skills

Languages: HTML , CSS , Reactjs , Javascript , Tailwind , Node.js , Express.js , MongoDB , REST API , Vite , Firebase
Frameworks and Tools : VS Code, Github, Google Colab , Vercel , Netlify

Soft Skills : Critical thinking, Problem-solving, Team collaboration Communication , Adaptability , Time Management

Experience

InternsElite ,India

JUNE 2025 - SEPTEMBER 2025

Internship and Training

- Designed and developed scalable web applications using the MERN stack, focusing on performance, usability, and maintainable code.
- Implemented user authentication, API integration, and database management to deliver secure and dynamic web solutions.
- Strengthened practical skills in modern web development through real-world projects, code reviews, testing, and collaborative development practices.

Mannka Pvt.Ltd , India

MAY 2024 – NOVEMBER 2024

Co-Founder/ CTO

- Directed technical strategy, product architecture, and engineering roadmap to align technology initiatives with business objectives.
- Built and scaled the core technology stack while leading development efforts and ensuring high-quality, reliable product releases.
- Drove innovation, system performance optimization, and cross-functional collaboration to support product scalability and business growth.

TEDxBBAU, India

March 2025 – May 2026

Co-Head of Web-Ops Team

- Co-led the Web Operations team at TEDxBBAU, managing website development, maintenance, and performance optimization.
- Collaborated with cross-functional teams to deliver web solutions that enhanced user engagement and event accessibility.
- Ensured website reliability through testing, issue resolution, and continuous improvements, supporting successful event operations and attendee experience.

Projects

Mannka Website | React, CSS , Firebase

[\(View Project\)](#)

- Engineered a full-stack VIP Darshan platform with secure authentication, real-time booking management, and responsive user interfaces.
- Designed and implemented scalable web architecture, improving booking efficiency, platform reliability, and user engagement.

TEDxBBAU Website | React , Framer Motion , Tailwind

[\(View Project\)](#)

- Engineered the official TEDxBBAU website, delivering a scalable, responsive, and high-performance user experience.
- Collaborated across design and content teams to implement seamless event presentation, speaker showcases, and registration workflows.

AI-Powered Career Counselor (PathFinder) | React , Tailwind

[\(View Project\)](#)

- Built an AI-powered career counselor that provides personalized career recommendations.
- Integrated intelligent guidance features to suggest relevant career paths and skills.

Maze Game | HTML, CSS , Javascript

[\(View Project\)](#)

- Developed an interactive maze game with player navigation, obstacles, rewards, and enemy challenges.
- Implemented game logic, collision detection, and score tracking to create an engaging user experience.

Certifications

- Advance Mern Stack - InternsElite (2024)
- Letter Of Recommendation - Tedx (2025 & 2026)

Education

- Babasaheb Bhimrao Ambedkar University
B.Tech in Computer Engineering, CGPA: 7.4/10
Nov 2022 – June 2026
Lucknow, U.P
- City Montessori School [Board: ISC]
Class XII (PCM)| 78.8% [Board: ISC]
April 2021 – April 2022
Lucknow, U.P
