Summary

Full Stack Developer specializing in JavaScript and the MERN stack, with hands-on experience building scalable, RESTful-API-driven web applications using React.js, Node.js, Express.js, MongoDB, Firebase, and modern frontend tools. Experienced in responsive UI development, authentication, database-driven applications, debugging, and cross-functional collaboration.

Technical Skills

Languages: HTML , CSS , Reactjs , JavaScript (ES6+) , Tailwind , Node.js , Express.js , MongoDB , REST API , Vite , Firebase
Frameworks and Tools : VS Code, Github, Google Colab , Vercel , Netlify, Next.js , GSAP , Framer Motion
Soft Skills : Critical thinking, Problem-solving, Team collaboration Communication , Adaptability , Time Management

Experience

InternsElite ,India

JUNE 2024 - SEPTEMBER 2024

Internship and Training

- Architected scalable web applications using the MERN stack, prioritizing performance, usability, and maintainable code.
- Implemented secure authentication, RESTful API integration, and database management for dynamic, production-ready solutions.
- Strengthened full-stack development skills through real-world projects, code reviews, debugging, and collaborative practices.

Mannka Pvt.Ltd , India

MAY 2025 – NOVEMBER 2025

Co-Founder/ CTO

- Developed and maintained the platform for VIP/guided temple darshan bookings.
- Supported a platform serving 250+ customers, contributing to product development, booking operations, and platform scalability.
- Contributed to pricing and product strategy that generated ₹2.5L revenue within five months.

TEDxBBAU, India

March 2025 – May 2026

Co-Head of Web-Ops Team

- Co-led the Web Operations team at TEDxBBAU, overseeing site development and performance optimization.
- Partnered with cross-functional teams to ship responsive solutions that boosted engagement and accessibility.
- Ensured platform reliability through testing and issue resolution, supporting smooth event operations.

Projects

Mannka Website | React, CSS , Firebase

[\(View Project\)](#)

- Engineered a full-stack VIP Darshan booking platform featuring secure authentication, real-time scheduling, and responsive UI design.
- Architected a scalable web system, boosting booking efficiency, platform reliability, and overall user engagement.

TEDxBBAU Website | React , Framer Motion , Tailwind

[\(View Project\)](#)

- Engineered the official TEDxBBAU website, delivering a fast, scalable, and fully responsive user experience.
- Collaborated with design and content teams to build seamless event presentations, speaker showcases, and registration workflows.

AI-Powered Career Counselor (PathFinder) | React , Tailwind

[\(View Project\)](#)

- Built an AI-powered career counselor delivering personalized career recommendations.
- Integrated intelligent guidance features to surface relevant career paths and skills.

Maze Game | HTML, CSS , Javascript

[\(View Project\)](#)

- Built an interactive maze game featuring dynamic player navigation, obstacles, rewards, and enemy AI.
- Implemented core game logic, collision detection, and score tracking for an engaging user experience.

Certifications

- Advance Mern Stack - InternsElite (2024)
- Letter Of Recommendation - Tedx (2025 & 2026)

Education

Babasaheb Bhimrao Ambedkar University

Nov 2022 – June 2026

B.Tech in Computer Engineering, CGPA: 7.4/10

Lucknow, U.P

City Montessori School [Board: ISC]

April 2021 – April 2022

Class XII (PCM)| 87.5% [Board: ISC]

Lucknow, U.P
